

1. Use the **Windows key + I** keyboard shortcut to open the Settings app.
2. Click **Zeit und Sprache**.

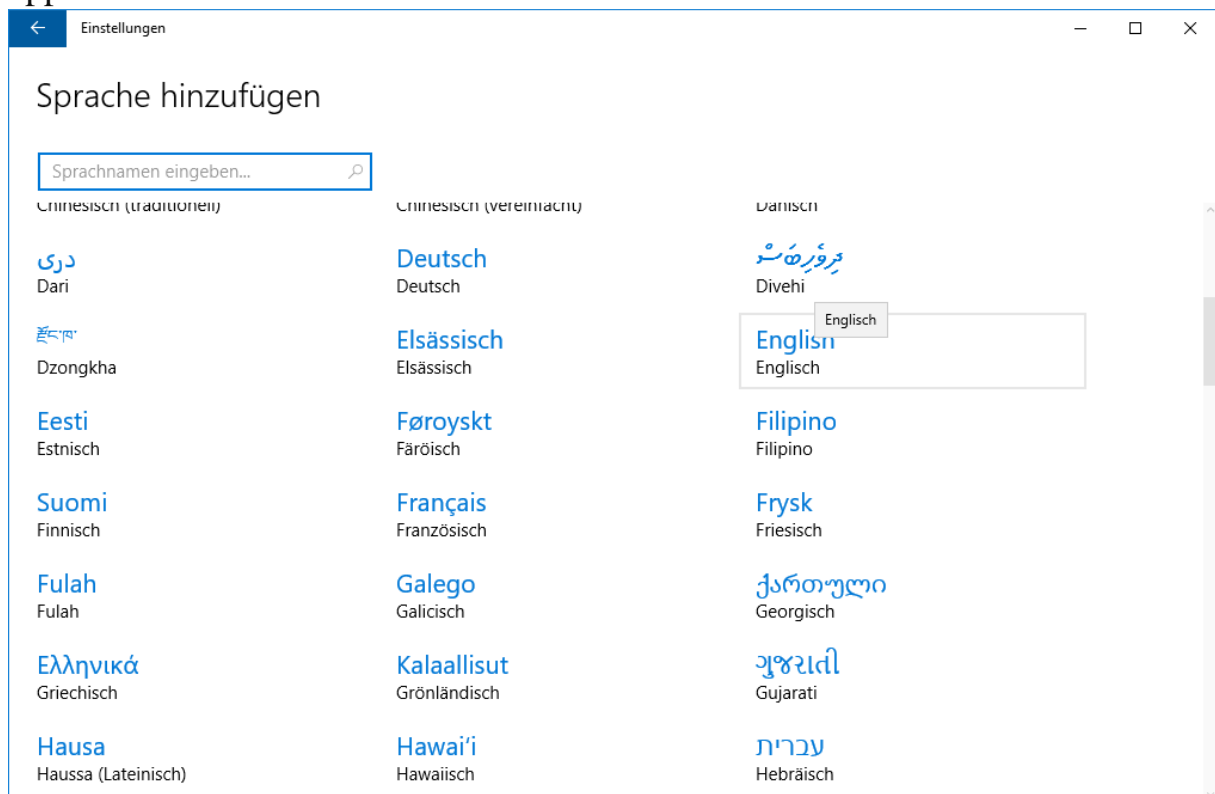

3. Click **Region & Sprache**.

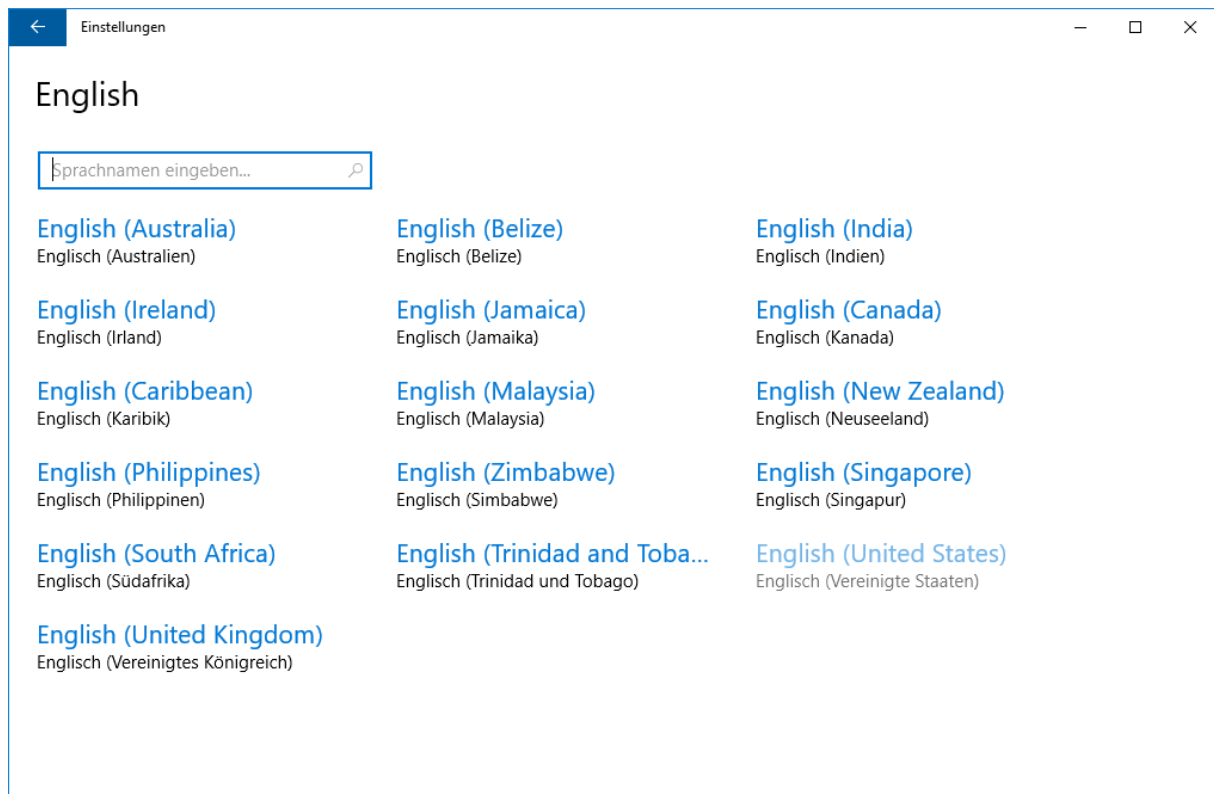

4. Under Sprachen, click **Sprache hinzufügen**.

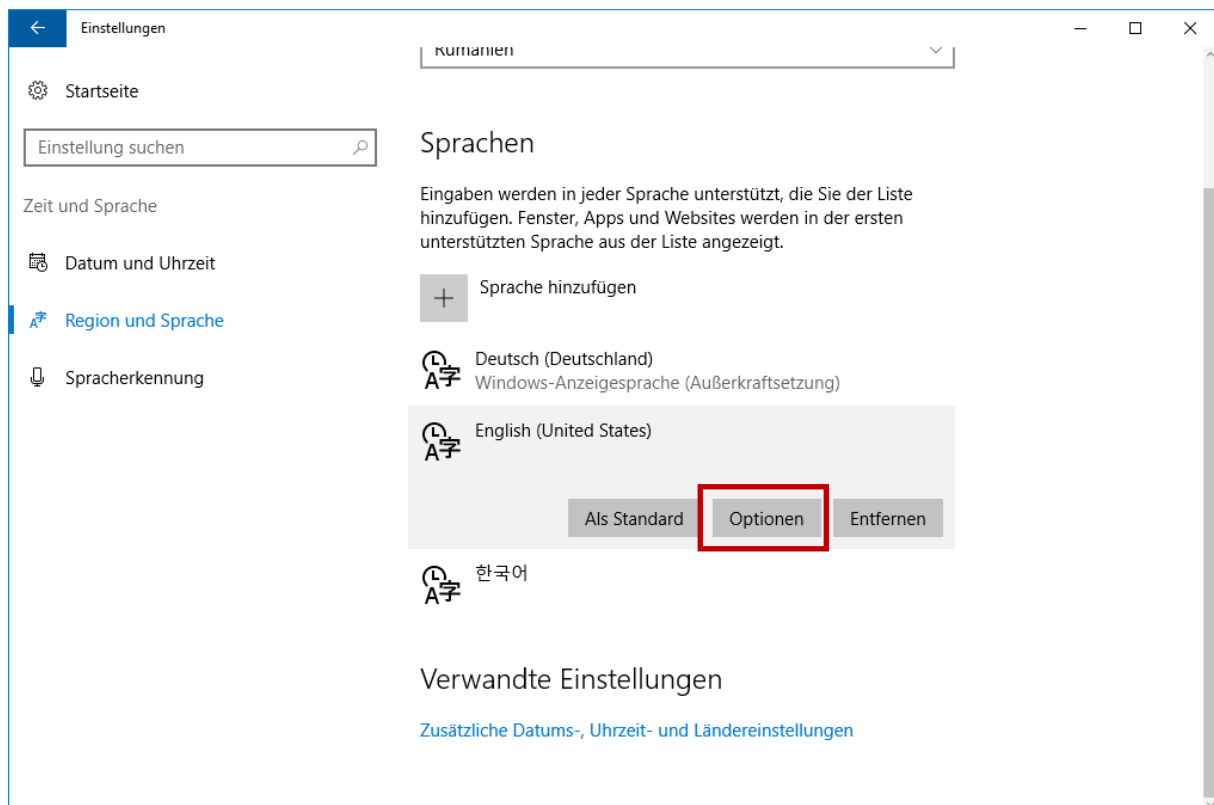

5. Click the language you want to add, and select the specific variation if applicable.

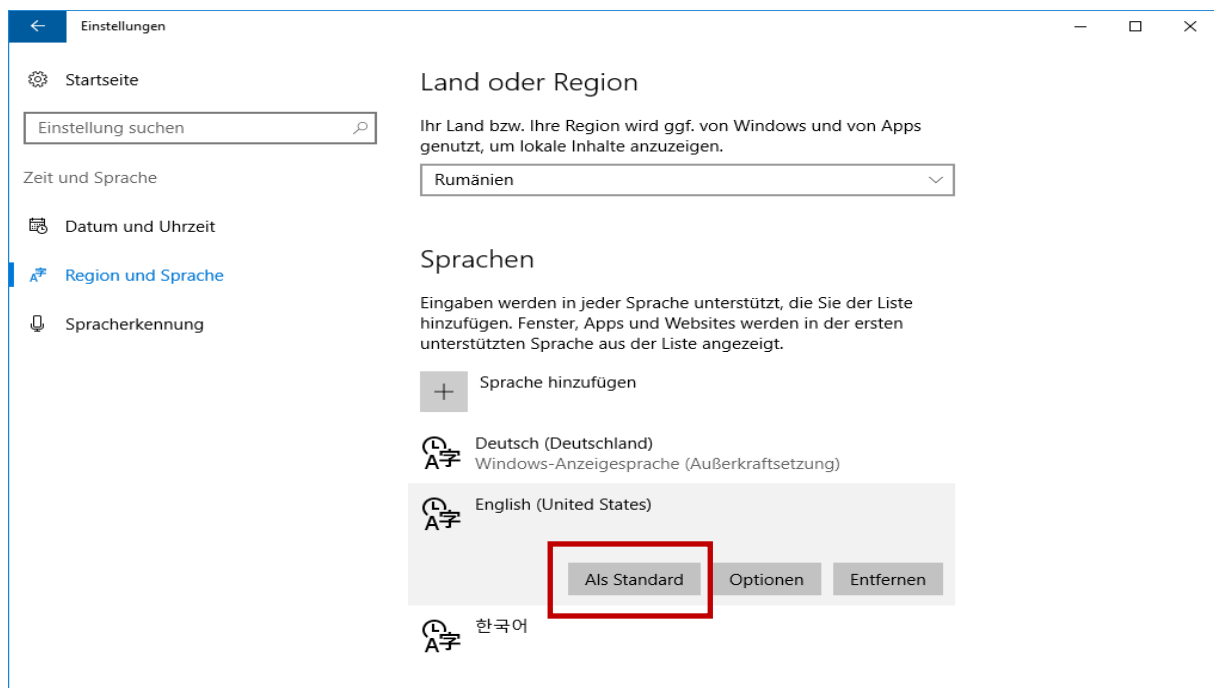

6. Select the new language and click **Optionen** (and download any the language packs as necessary).

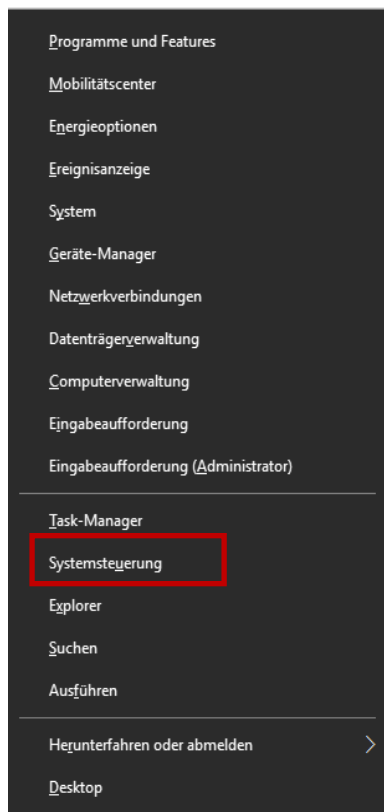

7. On Region & Sprache, select the new language, and click **Als Standard**.

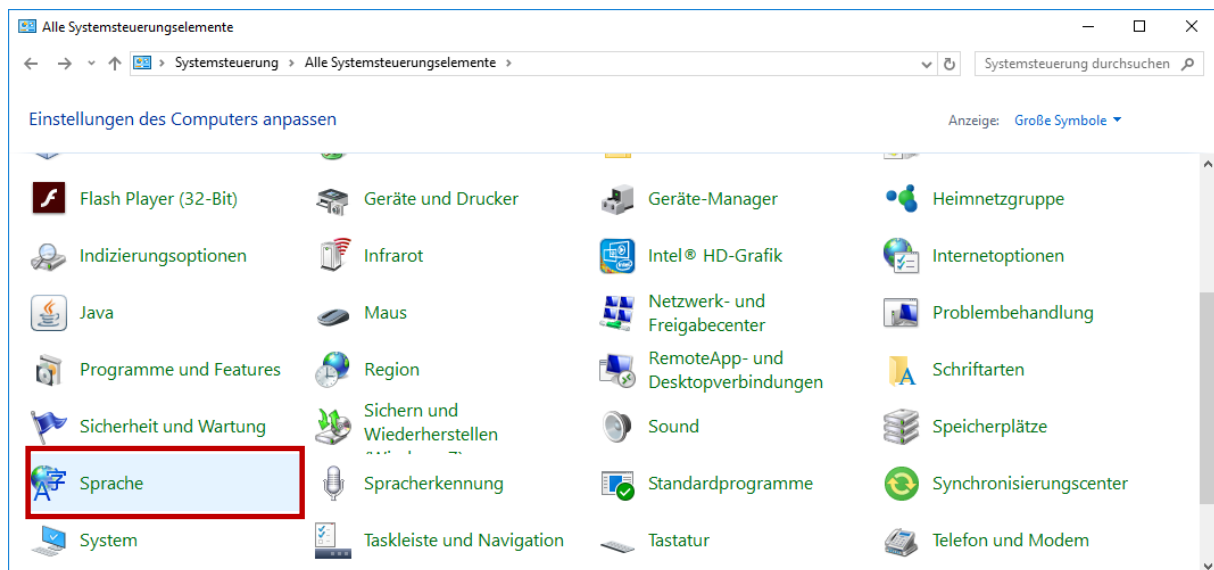

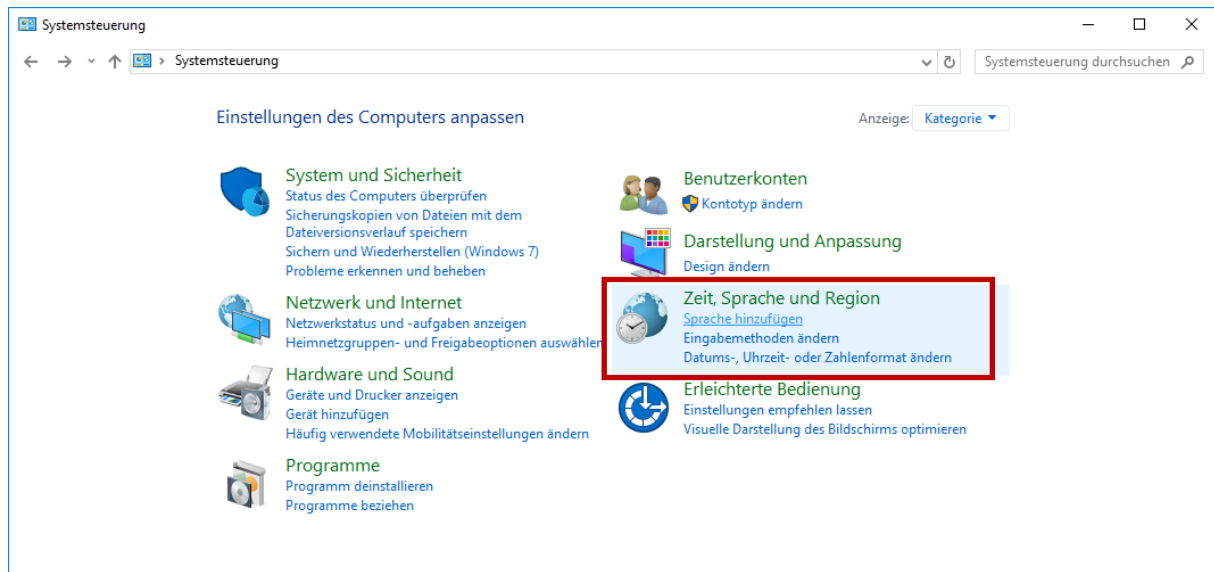

8. If applicable, under Country or region, select your location to enable the Windows 10 to give you local content.

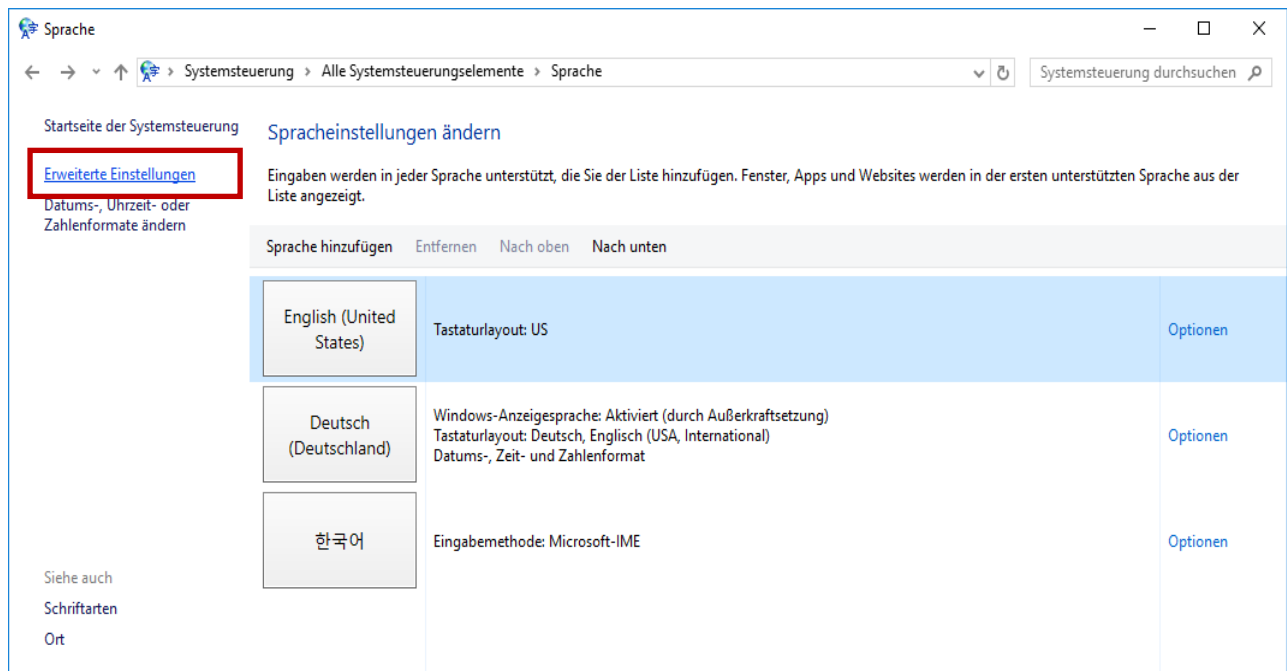

9. Use the **Windows key + X** keyboard shortcut to open the Power User menu and select **Systemsteuerung**.

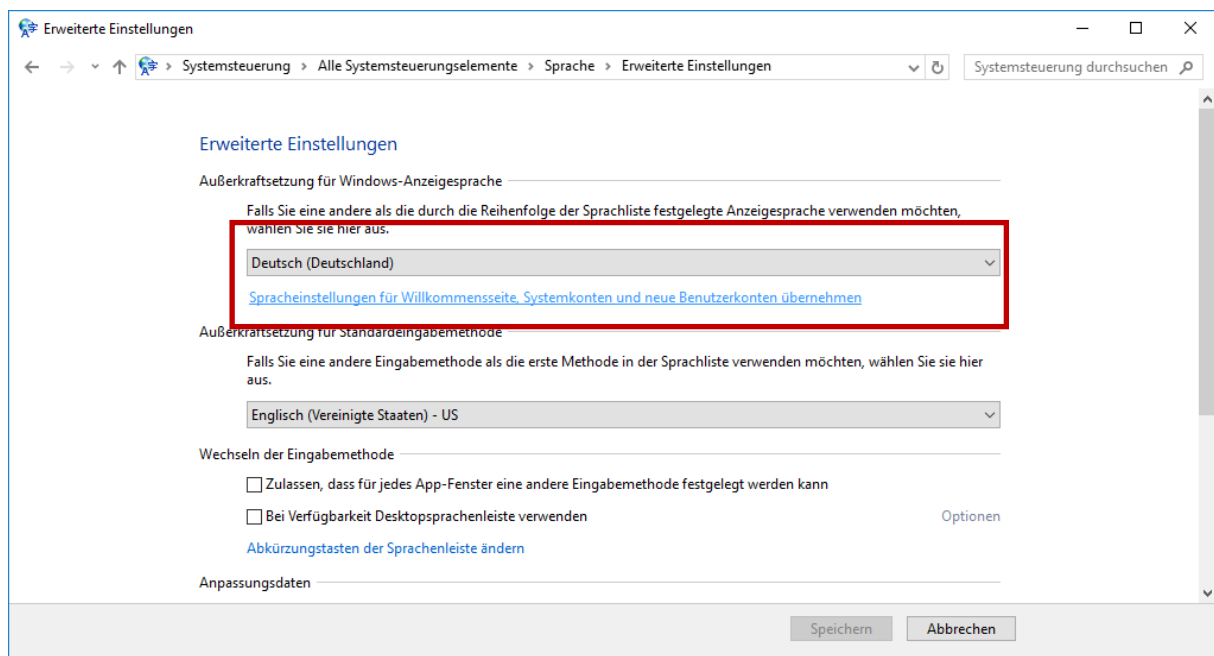

10. Under Zeit, Sprache und Region select **Sprache hinzufügen** or **Sprache**

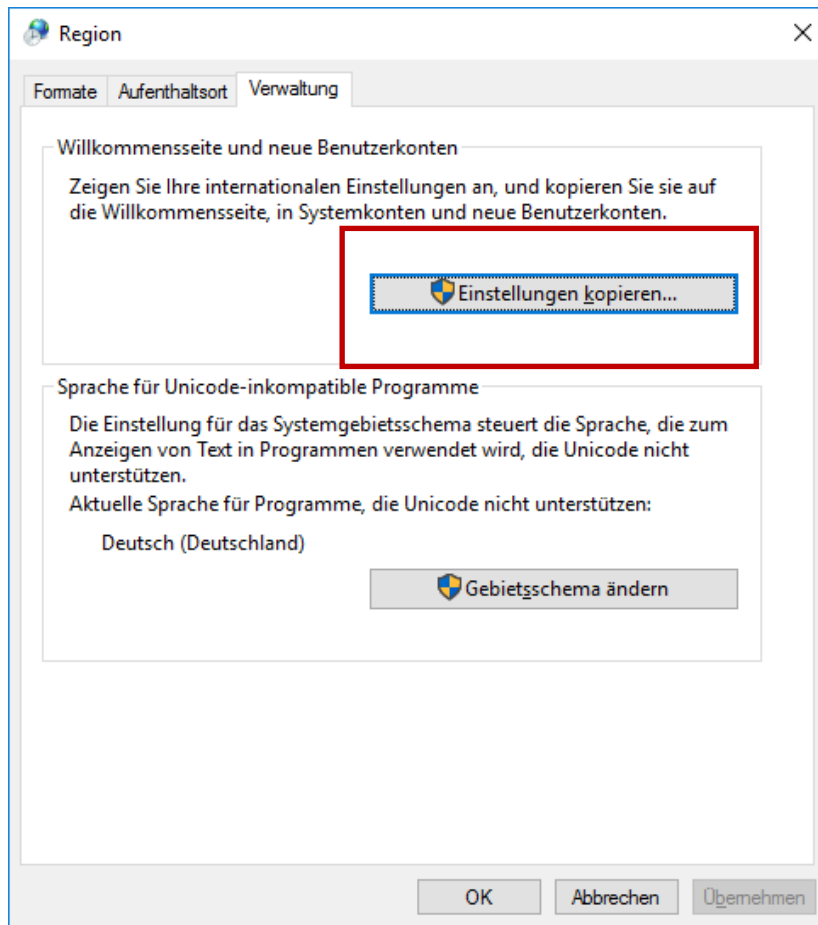

11. Click the **Erweiterte Einstellungen** link in the left pane.

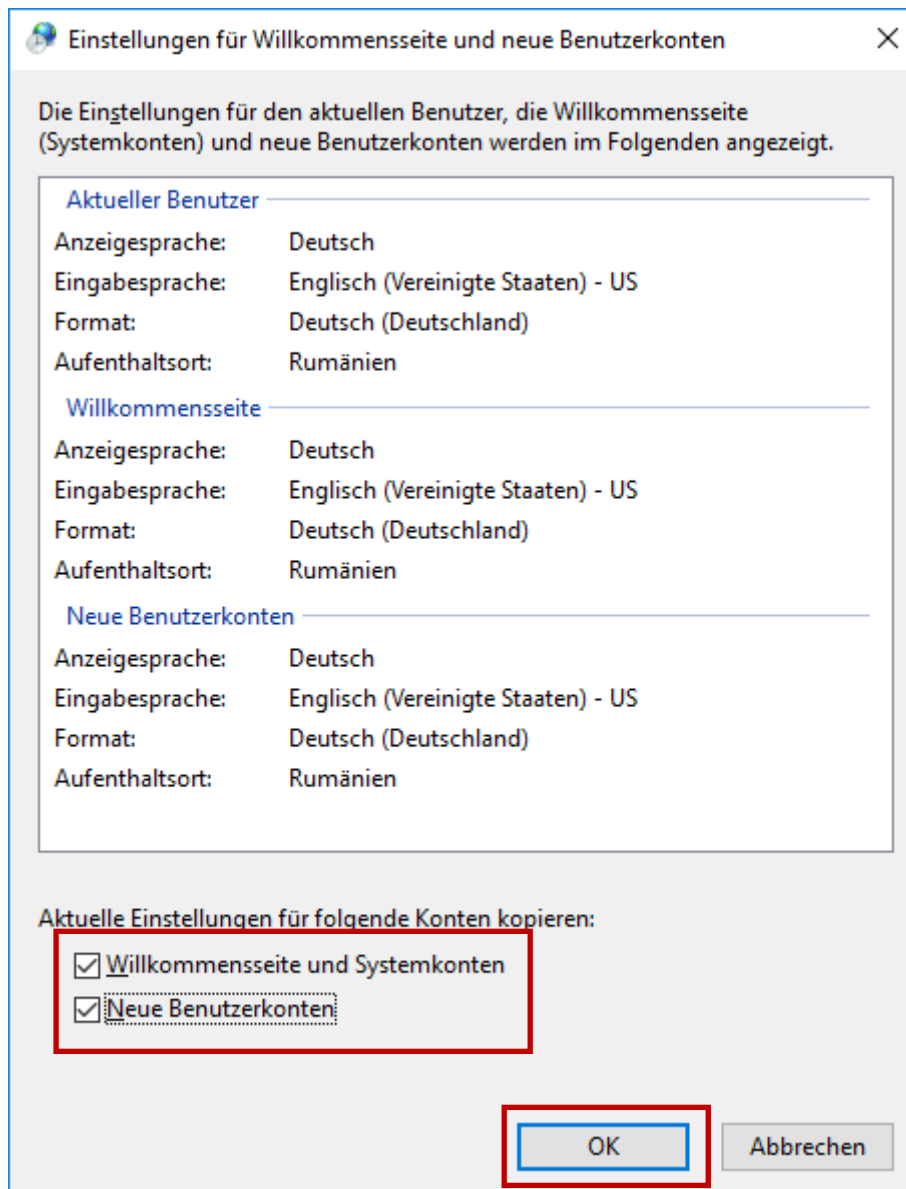

12. Select the language and click the **"Spracheinstellungen für Willkommensseite, Systemkonten und neue Benutzerkonten übernehmen"**

13. On the Verwaltung tab, under the "Willkommenseite, und neue Benutzerkonten", click the **Einstellungen kopieren ...** button.

14. Check the **Willkommenseite und Systemkonten** and the **Neue Benutzerkonten** options.

15. Click **OK**.

16. Click **OK again**.

17. Click on **Jetzt neu starten** to reboot your computer and upon restart, you should see the new default language globally set through the operating system.
